## 2025 ASIA-PACIFIC MICROWAVE CONFERENCE

December 2 (Tue) - 5 (Fri), 2025  
ICC JEJU, Jeju Island, Korea

### Welcome to APMC 2025

The 37th Asia-Pacific Microwave Conference (APMC) will take place from December 2 to 5, 2025, at ICC JEJU in Jeju Island, Korea. Since its inception in 1986, APMC has been the premier microwave event in the Asia-Pacific region for nearly 40 years. We are delighted to once again host APMC in Korea, following three previous conferences held here in 1985, 2003, and 2013.

We are confident that APMC 2025 will provide an excellent opportunity for researchers from both academia and industry to share their latest technical and scientific achievements in the frequency ranges of microwave, millimeter-wave, terahertz, and beyond. Additionally, it will foster strong networking among participants from around the globe. We cordially invite you to attend and enjoy APMC 2025 in the beautiful island of Jeju.

### Conference Venue

APMC 2025 will be held at the International Convention Center Jeju (ICC JEJU) in Jeju Island, an island designated as a UNESCO World Natural Heritage site. ICC JEJU is located in the Jungmun Tourist Complex with the cobalt-blue Northern Pacific stretching on the south and towering Mt. Hallasan in the north. Spreading over an area of more than 5,000m<sup>2</sup>, the world-class convention center is a 7-story building. Artfully blending tourist resources and convention facility, this resort-style convention center is fully equipped for international meetings of any scale and provides professional logistic support in events hosting.

## Jeju Island, Globally Recognized for Its Natural Wonders!

Jeju Island is the foremost island in Korea in terms of size and unique climate. The island province consists of Jeju Island and its adjacent islands. Geographically, its relative isolation from the mainland resulted in a unique dialect and lifestyle of its own. The natural beauty of Mt. Hallasan and the surrounding sea make Jeju Island an ideal resort island. In recent years, Jeju Island has been awarded multiple times by global organizations. The island contains the natural World Heritage Site Jeju Volcanic Island and Lava Tubes. Jeju Island is UNESCO's only triple-crown winner for World Natural Heritage, Global Geopark, and Biosphere Reserve. It is also renowned for its beautiful, pristine environment and has been designated as one of the New 7 Wonders of Nature. With the 21st century's arrival, Jeju City is transforming itself into irreplaceable tourist area.
