

# APMC 2025

2025 ASIA-PACIFIC MICROWAVE CONFERENCE

DEC 2 - 5, 2025 | ICC JEJU, Jeju Island, Korea

Company Name	Keysight Technologies Korea	Company Logo
Address	Singsong Center Bldg. #57, Yeouinaru-ro, Yeongdeungpo- gu, Seoul	
President	Sun-Woo Lee	
Website	www.keysight.com	
E-mail	minkyung.sung@keysight.com	
Telephone	+821093177004	
Fax	n/a	
Exhibitor Introduction	Keysight Technologies (NYSE: KEYS) is a global electronic measurement technology and market leader helping to transform its customers' measurement experience through innovations in wireless, modular and software solutions. Keysight's electronic measurement instruments, systems, software and services are used in the design, development, manufacture, installation, deployment and operation of electronic equipment.	
Exhibit Description	Discover Keysight's latest innovations in vector network analysis with the PNA-X Pro and ENA-X series. The <b>NA5202A PNA-X Pro</b> simplifies the testing of frequency-translating and differential active components by integrating up to four ultra-low phase noise sources, two low-noise receivers, and combiners - all in a single compact setup. The <b>E5081A ENA-X</b> enables fast and accurate EVM and noise figure measurements for 5G and satellite components using full vector correction at the DUT plane, eliminating the need for multiple instruments. Both solutions reduce test complexity and cycle time while improving measurement precision and repeatability. Experience streamlined high-frequency device characterization with unmatched efficiency.	
Exhibit Product	NA5202A, PNA-X Pro Vector Network Analyzer E5081A, ENA-X Vector Network Analyzer N9912C, FieldFox Handheld Rf Analyzer N5186A, MXG Vector Network Analyzer
