Exhibitor Introduction	MDPI is a leader in the transition to open science by making more research free and accessible to everyone. Over 3.9 million researchers have entrusted us with publishing their scientific discoveries. Our aim is to ensure that high-quality research is verified and made available to the research community as quickly as possible. MDPI stands at the forefront of the open access movement, having launched its first online journal <i>Molecules</i> in 1996. Today, MDPI is a leader in open access publishing with more than 450 journals across all research disciplines. Every article is published under a Creative Commons Attribution License.	
Exhibit Description	<i>Electronics</i> (ISSN 2079-9292) is an international, peer-reviewed, open access journal on the science of electronics and its applications. It publishes reviews, research articles, short communications and letters. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. Subject Areas: The scope of <i>Electronics</i> includes: • Microelectronics • Optoelectronics • Industrial Electronics • Power Electronics • Bioelectronics • Microwave and Wireless Communications • Computer Science & Engineering • Networks
