Exhibitor Introduction	Withwave is a pioneering company committed to becoming the world’s leading specialist in electromagnetic wave technologies. We design and develop cutting-edge connectivity solutions that are ultra-wideband, ultra-high-speed, superconductive, and ultra-miniature—powered by our core expertise in microwave and ultra-wideband engineering. Leveraging proprietary technologies, including connectors supporting up to 145 GHz and 224 Gbps bandwidth, we oversee the entire process from product development to manufacturing and testing. This ensures exceptional quality, performance, and reliability. We prioritize on-time delivery and tailor our solutions to meet customer needs—placing customer satisfaction at the heart of everything we do.
