

APMC 2025

2025 ASIA-PACIFIC MICROWAVE CONFERENCE

DEC 2 - 5, 2025 | ICC JEJU, Jeju Island, Korea

Company Name	Y.TECH	Company Logo
Address	106-74, Gwahakdanji-ro, Gangneung-si, Gangwon-do, Korea	
President	Martin Lee	
Website	www.ytcera.co.kr	
E-mail	sales@ytcera.com	
Telephone	+82-70-4148-6665	
Fax	+82-33-646-3032	
Exhibitor Introduction	Y.TECH is a specialized LTCC(Low Temperature Co-fired Ceramic) RF Component manufacturer. Our products are applied to high-reliability systems such as 5G/6G, automotive radar, defense radar systems, and satellite/spaceborne communication equipment. We support custom frequency bands and performance-optimized design for mass production.	
Exhibit Description	Y.TECH internally owns the whole manufacturing technology chain – from LTCC material formulation(paste, powder) to process development, RF circuit design, and quality evaluation. This enables rapid development and mass production of compact, high-frequency and highly reliable components at competitive cost.	
Exhibit Product	LTCC Antennas(UWB/5G/6G) / High-frequency Filter / LTCC AiP Modules / Power Termination / LTCC Substrates At APMC 2025, we will mainly show case high-frequency LTCC solutions for defense and satellite communication bands, and ultra-compact LTCC modules optimized for next-generation 5G/6G systems.
